

Bad Ninja Practice Session

Summary: You are a ninja and “accidentally” hit the campers a bunch.

Number of staff required: 1

Props/Materials/Costumes:

- Gather a shinai
- A kimono
- Chinese sun hat

Prep done:

- Put on costume
- Get plastic sword

Execution:

- Come into the cabin and announce in that you are a VERY skilled ninja and are about to practice in three rounds of absolute silence and hit nothing but air with skillful swings.
- Round one: swing and bash all the walls and wail kung fu noises for about 15 seconds.
- Then stop, go to the center and bow, and announce round two: even more silent and even more skillful.
- Proceed to bash the walls and wail again even louder.
- Repeat for round three: the most silent of all, and demonstrative of your true ninja skill. Go absolutely bonkers and beat the campers out of their sleeping bags until they are laughing hysterically.
