

Camp Augusta: Challenge Course Lead

Our high ropes elements, swings, climbing wall, bungee, and tree climbing elements provide adventurous and growth-oriented experiences for our campers. The ropes lead is tasked with managing and maintaining that challenge course. They are responsible for training course facilitators, performing and delegating regular element inspections, and keeping up-to-date safety logs and incident reports. They will communicate early and effectively with various camp staff and relate changes in standards and procedures to course facilitation staff. Must hold a Level 2 Challenge Course Practitioner certification or have the ability to obtain one.

Lead Skills

- Holds a Level 2 Challenge Course Practitioner certification, or has the ability to obtain one
- High level of awareness and confidence while on challenge course elements
- Able to confidently execute course and ropes rescues
- Able to communicate with participants in a way that is in line with our values of challenge by choice
- Able to communicate effectively with other roles at camp including our Director, Program Director, Master of Operations, and the Puppet Master
- Able and eager to find ways to improve program safety, process, and enjoyment
- A high level of understanding of course safety and risk management

Lead Tasks

- Handles the day-to-day management of the course
- Conducts course inspections on various course elements
- Maintains safety logs, as well as creating and handling incident reports
- Keeps an inventory of course gear, as well as handling ordering, repairs, inspections, and replacements of course gear
- Communicates with ACCT PVM (Professional Vendor Member) regarding our challenge course and ensures that our course is fully inspected and maintained
- Will regularly assess weather and other changing conditions related to course safety
- Trains staff members with little to no challenge course experience to facilitate a variety of elements, and scaffolds them into a place of high skill and confidence
- Evaluates facilitator skill and safety
- Communicates and coordinates with other Level 2 certified staff, including keeping them informed of process changes
- Sets up and breaks down gear and materials at the start and end of the summer season
