

# Snuggle Bug Wake-Up

**Summary:** A “snuggle bug” invades the room and cuddles obnoxiously with all the campers before the exterminator arrives to get rid of it.

**Number of waker-uppers required:** Two

**Props/Materials/Costumes:** *\*These are suggestions. Use whatever you have available to you in your home.*

- Bug costume - with whatever you have. Even if it's simple you can still say who you are.
- Exterminator costume - again, whatever you have
- Pool noodle/foam sword - or something similar

## **Execution:**

- The Bug enters the cabin and crawls onto the bed with campers, obnoxiously cuddling. The bug is mumbling words about being a snuggle bug, and needing to snuggle.
- After a couple minutes of obnoxious snuggling, the the exterminator comes in and the battle begins as the exterminator tries to whack the bug with a pool noodle (accidentally whacking the campers instead) and the bug jumps from bed to bed trying to escape the exterminator.
- Finally, the bug decides the cabin is too dangerous, bids the campers farewell, and scurries out of the cabin. The exterminator chases after the cuddle bug.

## **Additions:**

- If campers are really “enjoying” the snuggle bug, snuggle obnoxiously for longer. If they aren't have the exterminator quickly come in and make that part of the wake-up longer
- You can also have the campers help the exterminator by giving them materials and asking for their help in getting rid of the bug.
