

Leaf Prints

Make beautiful prints with leaves from your local community.

Materials/Set Up:

- Paper
- Paint
- Brushes

Description:

A new design. Painting using the printing on leaves.

Activity Framework/Process:

- Take campers for a walk to pick up leaves that they would want to use.
 - What types of leaves are in your community? Any Pine, Manzanita, Oak, or Cedar?
- Once each camper has chosen a good amount of leaves (5-7, the more they have the better it will look) take them to your craft table
- Hand out the paper and paint/brushes
- Campers will make designs by painting one side of the leaf, and stamping it on to the paper (see examples below)
- Once a camper has created their painting, they can hang it up, experiment, and make another
 - Campers can wash the paint off of their leaves if they want to add a different color.
